

SATS RAP

*Sats is over all revision done.
Science A science B, I wish
I could be outside - Playing, footy.*

*Multiplication, condensation,
reproduction - it goes on.
How do, I remember, my memory's
gone.*

*English - commas, questions too.
It's all too much for me to do,
I'm gettin' bored of these papers
cuz these are NOT my motivators, All I
could say is I did me best - not just
guessed.*
